Setup User Accounts

PUBLIC

Set Up User Accounts

Roles and Permission Details

Administrator

- There can only be one administrator per ANID
- Automatically linked to the username and login entered during registration
- Responsible for account set-up/configuration and management
- Primary point of contact for users with questions or problems
- Creates users and assigns roles/permissions to users of the account

User

- Up to 250 user accounts can exist per ANID
- Can have different roles/permissions, which correspond to the user's actual job responsibilities
- Can access all or only specific customers assigned by Administrator

Set Up User Accounts

Create Roles and Users (Administrator Only)

1. **Click** on the Users tab under **Company Settings** menu. The Users page will load.
2. **Click** on the **Create Role** button in the Manage Roles section and type in the Name and a Description for the Role.
3. **Add Permissions to the Role** that correspond to the user's actual job responsibilities by checking the proper boxes and click save to create the role.
4. **To Create** a User Click on Create User button and add all relevant information about the user including name and contact info.
5. **Select** a role in the Role Assignment section and Click on Done. You can add up to 250 users to your Ariba Network account.

Set Up User Accounts

Modifying User Accounts (Administrator Only)

1. **Click** on the Users tab.
2. **Click** on Edit for the selected user.
3. **Click** on the Reset Password Button to reset the password of the user.
4. **Other options:**
 - Delete User
 - Add to Contact List
 - Remove from Contact List
 - Make Administrator
